Dear Gerry,

5/29/90

On the chance this can reach you before you leave, and it won't unless you go to the college to pick your mail up, a few suggestions and some info.

Jerry, who will have company beginning late Saturday afternoon, old friends from Philadelphia, say you should consider using Metro to go to Washington and not have to worry about parking and its cost and the terrible traffic on I 270. That won't be as rough on a Sunday but with the tourist season beginning it can take time and patience. He never drives down there any more. It is an easy drive to the Metro station at Shady Grove and it takes you right to the downtown area, where all the buildings and museums are.

On the xeroxing, if you have the inventory in mind we can get that done here for about 7¢ a page. If they are open on Saturday, as I think they are, maybe we can take it there in the morning and pick it up in the evening in time for dinner, if you'd like that, at the Vietnames restaurant. (They've expanded the menu and now it is Oriental, including Korean food.)

On the Ray hearings and minitrial, it may be easier and cheaper to arrange for that to be done through Jim Lesar and Bud's archive. Jim has a set or has given them to the archive. If not, it can be done here, but that is enough of a job for the local people to need some time.

If your dean saw FBI reports on King he may have been in intelligence. Many such records were sent to the military.

We look froward to you coming and to meeting your family.

Best wishes,
